

Abbreviated Contents of Volume 1

1. Introduction
2. Mechanical Surface Treatments and Finishes
3. Electrolytic and Chemical Polishing
4. Chemical Cleaning and Etching
5. Chemical Conversion Coatings and Pretreatment Films
6. The Fundamentals of Anodizing
7. Decorative and Protective Anodizing

Abbreviated Contents of Volume 2

8. Anodizing in Architecture
9. Hard Anodizing
10. Colouring Anodic Oxide Coatings with Dyes and Pigments
11. Sealing Anodic Oxide Coatings
12. Properties and Tests of Anodic Oxide Coatings
13. Plating on Aluminium
14. Organic Finishing
15. Vitreous Enamelling
16. Effluent from Aluminium Finishing Operations

Appendix A : Composition and Properties of Major European and U.S. Aluminium Alloys
Appendix B: Finishing Specifications
